Harshali Bhamare

+91 9356771912 | harshalibhamare729@gmail.com | LinkedIn | GitHub

Professional Summary

Aspiring Full-Stack Developer with a strong foundation in **Python, web development, SQL, and software development**. Experienced in building **Python applications, Flask-based web applications, and chatbot interfaces**. Skilled in **Python, Flask, MySQL, HTML, CSS, JavaScript, and Git/GitHub**. Seeking an entry-level **Software or Full-Stack Developer role** to build practical solutions and contribute to real-world projects.

Technical Skills

Languages: Python, JavaScript, HTML, CSS
Frameworks: Flask, React, Numpy, Pandas, Next.js
Database: MySQL, SQLite, Indexes
Tools: Git, REST APIs, VS Code
Core Concepts: OOP, Data Structure Algorithms, CRUD Operations

Education

Bachelor of Technology in Computer Science **2023 : 2026**
Sandip University, Nashik *Current CGPA: 8.93*

Diploma in Computer Engineering **2020 – 2023**
Rajshri Shahu Maharaj Polytechnic ,Nashik *Percentage: 76%*

Experience

Web Development Intern **Aug 2022**
Caliber InfoTech, Nashik *Tools: HTML, CSS, JavaScript, Python, MySQL*
- Developed and optimized 5+ responsive web pages using HTML, CSS, and JavaScript, improving page load time by 25%.
- Integrated MySQL databases with dynamic front-end interfaces, enabling real-time data interaction for over 1,000 users.

Python Full Stack Developer Intern **Jun 2024**
YBI Foundation (Remote) *Tools: HTML, CSS, JavaScript, Python*
- Collaborated with a team to design and test responsive web pages.
- Applied debugging and coding best practices to improve performance and maintainability.

Application Development Intern **Jul 2025**
Nexanova Protech, Pune *Tools: Java, Android Studio, MySQL, Git*
- Contributed to Android app development, improving feature delivery speed by 30% through efficient testing and version control.
- Coordinated with cross-functional teams to achieve 95% on-time milestone completion.

Projects

Digital Ration Card Management System — | *Python, Flask, MySQL, HTML, CSS, JavaScript*
- Developed a web-based Digital Ration Card Management System to automate ration card registration and distribution processes.
- Developed CRUD operations for managing citizen records and ration card applications.
- Built a responsive interface for efficient data management and user interaction.

VisionFly AI: Gesture-Controlled Flight Interface — GitHub | *Python, OpenCV, MediaPipe, Computer Vision*
- Developed a real-time hand gesture recognition system using OpenCV and MediaPipe.
- Enabled touchless flight control through gesture-based commands and motion tracking.
- Processed live video streams with high-accuracy hand landmark detection for interactive control.

Awards & Certifications

- **National Level Project Competition:** Secured 1st place among 200+ participants.
- **Deloitte Data Analytics Virtual Experience – Forage:** Built Tableau dashboards and analyzed telemetry data.
- **Web Development Internship Certification – YBI Foundation.**
- **Bharatiya Antariksha Hackathon:** Developed a satellite data visualization module.
- **Python Programming Certification:** Completed training in core Python and data handling.
